SEPTEMBER 16	Grand Theatre 1500 seats	Theatre Louis Pasteur 477 seats	Theatre Marie Curie 422 seats	3.2 AB Room 220 seats	3.1 AB Room 192 seats	2.3 + 2.4 Room 160 seats	3.1 C Room 100 seats	3.2 C room 100 seats	Workshops Room 3.5+3.6
08:30-09:30		SIG on Brain Health & Dementia Chairs: Hanna-Maria Roitto (Finland), Tomas Welsh (UK) 1) Welcome & Introduction 2) Update on Ongoing Activities & Collaborations 3) From Memory Clinics to Brain Health Services: Implications for Older Adults and the Future of Cognitive Care in Europe Tomas Welsh (UK) 4) Applying Biomarkers in Alzheimer's Disease: From Clinical Uncertainty to Biological Precision and Personalised Care Seán Kennelly, (Ireland) 5) Update on objectives and actions planned for the next year	SIG on Frailty & Resilience Chairs: Dhayana Dallmeier (Germany), Ellen Freiberger (Germany) 1) Welcome & Introduction Dhayana Dallmeier (Germany), Ellen Freiberger (Germany) 2) Insights from The Lancet Commission on Frailty Speakers TBD 3) Update on ongoing activities and collaboration Dhayana Dallmeier (Germany), Ellen Freiberger (Germany)	SIG on Geriatric Emergency Medicine Chairs: Santiago Castejón-Hernández (Spain), Barry Evans (UK) 1) Welcome & Introduction of the new co-chairs Santiago Castejón-Hernández (Spain), Barry Evans (UK) 2) Communication: Newsletter and Website 3) Update on objectives for the next two years 4) New actions planned 5) Application of an algorithm to assess whether referrals from care homes are appropriate Jon Uriarte de Sivatte, Spain	SIG on Long Term Care Chairs: Rebecca Dreher (Switzerland), Katarzyna Szczerbinska (Poland) 1) Mandatory use of the interRAI LTCF instrument in Flemish nursing homes: a SWOT analysis Anja Declercq (Belgium) 2) Improving quality of life and quality of care in LTC homes: Examples from Canada John P. Hirdes (Canada) 3) OnSPARK: Canada's largest learning health system data platform for long-term care Colleen Webber (Canada)	SIG on Education & Training Shaping Tomorrow's Physicians: The new Geriatrics Undergraduate Curriculum 1)Welcome and Introduction from Co-Chairs M Cristina Polidori (Germany), Michael Vassallo (UK), Roman Romero-Ortuno (Ireland) 2) The new Undergraduate Curriculum in Geriatric Medicine Grace Pearson (UK) 3) The Experience of Medical Students in Geriatric Medicine: Results from the COST Action PROGRAMMING 21122 Giulia Ogliari (UK) 4) Roundtable discussion: Advancing Geriatric Medicine Training through University Engagement - All	SIG on Biology of Ageing Chairs: Marcello Maggio (Italy), Carly Welch (UK) 1) Welcome and Introduction Marcello Maggio (Italy), Carly Welch (UK) 2) Presentation and questions Thomas Jackson (UK) 3) UK national survey, proposed project of EuGMS member survey Carly Welch (UK) 4) Open discussion on objectives and actions planned for the next year	T&FG on Fall Risk Increasing Drugs Chair: Lotta Seppala (The Netherlands) 1>Welcome and Introduction Lotta Seppala (The Netherlands) 2. Fall-risk-increasing drugs and orthostatic hypotension Amy Lynch (Ireland) 3. Health care professionals experiences of the STOPPFall: an interview study of implementation determinants Lotta Seppala (The Netherlands) 4. AOB Lotta Seppala (The Netherlands)	
09:30-10:30		SIG on Delirium Chairs: Neus Gual Tarrada (Spain), Alessandro Morandi (Italy) 1) Detecting delirium in dementia: to define more precisely the boundaries between delirium and BPSD, acknowledging the complexity Silvia Ottaviani (Italy) 2) Survey of delirium in long-term facilities Esra Ates Bulut (Türkiye) 3) Epidemiology and Assessment of Delirium in Non-Cancer Palliative Care: A Systematic Review A Collaborative Work between EuGMS SIG Delirium and EuGMS SIG Palliative Care Elena Pinardi (Italy) 4) Development of a Strategic Educational Framework on Delirium across Europe Neus Gual (Spain)	SIG on Cardiovascular Medicine Chairs: Francesco Mattace Raso (Netherlands), Raj Rajkumar (UK) 1) Heart Failure Chukwuma Okoye (Italy) 2) Update Survey of Falls and European Registry Andrea Ungar (Italy) 3) Blood pressure goals in older old Francesco Mattace Raso (Netherlands), Raj Rajkumar (UK)	SIG on Sarcopenia Beyond Sarcopenia: Advancing Muscle Health Chairs: Ivan Bautmans (Belgium), Robin Daly (Australia) 1) Welcome and Introduction from Co-Chairs 2) Strength snacking 3) Update on SIG European muscle health survey project 4) Interactive SIG Activity: Muscle Health Monitoring & Management Algorithm in Primary Care - Share Your Perspectives 5) Rethinking sarcopenia: a conceptual shift towards a muscle health continuum Stany Perkasas, Belgium 6) Update on objectives and actions planned for the next year	SIG on Vaccines & Infectious Disease Chairs: Meltem Koca (Türkiye), Nicola Veronese (Italy)	SIG on Big Data Chairs: Giulia Ogliari (UK), Luca Soraci (Italy) 1. Brief update on SIG activities and future directions Giulia Ogliari (UK) 2. Proposal on a living registry of geriatric databases Thomas Kocar (Germany) 3. AI in Geriatric Medicine SIGs on Big Data and on Gerontechnology & Digital Health Steering Committees	SIG on Diabetes Chair: Isabelle Bourdel-Marchasson (France) 1) Welcome and Update on Ongoing Activities Isabelle Bourdel-Marchasson (France) 2) The Sarcopenic Obesity–Diabetes Phenotype: Clinical and Pathophysiological Insights Zyta Beata Wojczel (Poland) 3) How to Adapt Anti-Diabetic Prescribing Algorithms in Very Frail Older People Isabelle Bourdel-Marchasson (France)		
10:30-11:30		SIG on Pharmacology Chairs: Eveline van Poelgeest (Netherlands), Martin Wehling (Germany) 1) Welcome and Introduction 2) SR on swallowing deficits induced by drugs: data close Martin Wehling (Germany) 3) SR on effectiveness and safety of chronic diuretic use in older adults Eveline van Poelgeest (Netherlands) 4) Practice-Changing Updates from the TIME Criteria Gülistan Bahat and Sirin Zelal Sahin Tırnova (Türkiye) 5) PRIME-TIME Project Gülistan Bahat and Sirin Zelal Sahin Tırnova (Türkiye) 6) Drug treatment of chronic pain in older patients Martin Wehling (Germany) 7) Deprescribing in Guidelines International Consortium Shin Liao (Australia) 8) Report on status of activities regarding official institutions, especially EMA Michael Denkingner (Germany) 9) Organizational Issues Eveline van Poelgeest (Netherlands), Martin Wehling (Germany)	SIG on Geriatric Rehabilitation Chairs: Stefan Grund (Germany), Bartłomiej Sołtyś (Poland) 1) Welcome and Introduction Stefan Grund & Bartłomiej Sołtyś 2) Update on ongoing activities and collaborations Stefan Grund & Bartłomiej Sołtyś 3) Geriatric rehabilitation assessment and interRAI Katherine Berg (Canada) 4) Muscle ultrasound standards in geriatric rehabilitation Stefan Grund (Germany) 5) Workshop in Łódź, November 2026 Bartłomiej Sołtyś (Poland) 6) Update on objectives and actions planned for the next year Stefan Grund & Bartłomiej Sołtyś	SIG on Nutrition Chairs: Gülistan Bahat (Türkiye), Nuno Mendonça (Portugal) 1) Welcome and Introduction and organisational updates Gülistan Bahat (Türkiye), Nuno Mendonça (Portugal) & Tuğba Erdoğan (Türkiye) 2) Update on Ongoing and Completed SIG Activities Gülistan Bahat (Türkiye), Nuno Mendonça (Portugal) 3) GLIM Obesity Initiative: diagnosis of malnutrition in obese individuals Gülistan Bahat 4) Protein Intake and Transitions Between Frailty States in Older Adults Nuno Mendonça 5)Impact of the Pension for the Well-Being of Older Adults on Food Insecurity Among Older Mexican Adults: Evidence from the Mexican National Health and Nutrition Survey (ENSANUT), 2021–2024 Miriam T. López-Teros (Mexico) 6) The Association Between Malnutrition Risk and In-Hospital Falls in Elderly Patients Ólöf Guðný Geirsdóttir (Iceland) 7) Brainstorming and Future Collaborative Projects Gülistan Bahat & Nuno Mendonça 8) Information on next planned SIG meetings and webinars	SIG on Palliative Care Chairs: Mariana Alves (Portugal), Rozemarijn van Bruchem-Visser (Netherlands) 1) Recognition of palliative care needs in people living in nursing homes Dana Hrnčiariková (Czech Republic) 2) Exploring symptom relief in the last days of life, an online survey of pharmacological practices among geriatricians Tim Biesbrouck & Maaike de Roo (Belgium) 3) Palliative profile of Older Patients admitted in the emergency department: an analysis of problem importance in Europe Isabelle de Brauer & Alexandra Coulon (Belgium) 4) Epidemiology and Assessment of Delirium in Non-Cancer Palliative Care: A Systematic Review Collaboration on future research projects Elena Pinardi (Italy)	SIG on Gerontechnology & Digital Health Chairs: Siri Aas Smedemark (Denmark), Sławomir Tobis (Poland) 1) AI in Geriatric Medicine SIGs on Big Data and on Gerontechnology & Digital Health Steering Committees 2) Brief update on ongoing activities and collaborations Siri Aas Smedemark (Denmark), Sławomir Tobis (Poland), Valerio Arcobelli (Italy), Francesco Palmese (Italy) 3) Update on objectives and actions planned for the next year Siri Aas Smedemark (Denmark), Sławomir Tobis (Poland), Valerio Arcobelli (Italy), Francesco Palmese (Italy)	SIG on Perioperative Medicine Chair: David Shipway (UK) 1) SIG-Delphi study 'G-ERAS' Thomas Pederson (Denmark) 2) Study protocol for comparing specialized geriatric co-management versus standard care for older patients undergoing one-stage colectomy in hospital in France Laetitia Geronimi (France) 3) Implementation science, evaluation of implementing pro-active geriatric co-management on surgical ward Kathleen Fagard (Belgium)	T&FG on Integrated Psychiatric & Geriatric Care Chair: Carolien Benraad (Netherlands) 1) Welcome and Introduction Carolien Benraad, Netherlands, Richard Oude Voshaar, Netherlands 2) Update on ongoing activities and collaborations: • Introduction to the T&FG scope and objectives • Position paper Lucy Beishon (UK) • Membership expansion, psychiatrists, geriatricians and other relevant professionals 3) Integrated care for older adults with psychiatric and somatic disorders: a Dutch quality project Carolien Benraad, Netherlands 4) A combined psychiatric/geriatric inpatient unit in Belgium Nele Van Den Noortgate (Belgium) 5) Update on objectives and actions planned for the next year: • Other thematic papers • Explore research funding opportunities via European organisations • Updating training guidelines geriatricians and psychiatrists	
11:30-12:30		SIG on Falls & Fractures Chairs: Alvaro Casas Herrero (Spain), Carmelinda Ruggiero (Italy) 1) Welcome and Introduction Alvaro Casas Herrero (Spain), Carmelinda Ruggiero (Italy) 2) The Irish National Falls Audit: Initial Results from the First National Audit of Falls Care in Europe Robert Briggs & Amy Lynch (Ireland) 3) Risk of falls and fracture in women with sarcopenia Natalia Grygorivka (Ukraine) 4) Falls & Fractures management: from consensus to service implementation Lotta J Seppala (Netherlands), Carmelinda Ruggiero (Italy) 5) What happened this last year? Brief updates on the F&F literature Anna Björg Jonsdottir (Iceland), François-Xavier Sibille (Belgium), Tuğba Erdogan (Türkiye) 6) Update on ongoing SIG activities, collaborations, and actions planned for the next year Alvaro Casas Herrero (Spain), Carmelinda Ruggiero (Italy)	SIG on Comprehensive Geriatric Assessment Chairs: Carlo Custodero (Italy), Lone Winther Lietzen (Denmark) 1) Welcome and Introduction Carlo Custodero (Italy), Lone Winther Lietzen (Denmark) 2) Short presentations – “Minimal Set-CGA” & the value of CGA in rehab Filippo Maria Verri (Germany) 3) Update on ongoing activities, objectives planned for next year & EU-Guideline + slideshow of other SIGs cross-collaborations Lone Winther Lietzen (Denmark), Carlo Custodero (Italy) & Filippo Maria Verri (Germany) 4) Mini-Workshop – “Know-do gap” in CGA: 10 years later Lone Winther Lietzen (Denmark), Filippo Maria Verri (Germany) 5) Closing remarks Carlo Custodero (Italy), Lone Winther Lietzen (Denmark)	SIG on Gero-Oncology Chairs: Cecilia Lund (Denmark), Nina Rosa Neuendorff (Germany) 1) Welcome and Introduction Cecilia Lund (Denmark), Nina Rosa Neuendorff (Germany) • Geriatric Oncology - a growing field • Purpose of this SIG • SIG activities 2025-26 - Status on ongoing activities 2) Topic 2026: implementation of geriatric oncology: how and when? • The Geriatrician as Co-Pilot: Integrating Comprehensive Geriatric Assessment into the Surgical Pathway Isabell Dillström Gustafsson, Sweden • Experiences from an integrated geriatric oncology clinic - what made it work? Claire Falandry, France 3) Ideas for future activities	SIG on Systematic Review & Meta-Analysis Chairs: Charlotte Beaudart (Belgium), Konstantinos Prokopidis (UK) 1) Welcome & Presentation of SIG updates Charlotte Beaudart (Belgium), Konstantinos Prokopidis (UK) 2) CGA in the cardiology setting: a systematic review and meta-analysis Luca Corbia (Italy) 3) Performance of blood-based markers and their association in the diagnosis of subtypes of dementia: A systematic review and pairwise meta-analysis Emma Calluy (Belgium) 4) Survey on "what could be improved in our SIG" and "what projects may be proposed for the next academic year Charlotte Beaudart (Belgium), Konstantinos Prokopidis (UK)	SIG on Gerodontology Chairs: Anastasia Koutsouri (Greece), Aleksandra Popovac (Serbia) 1) Welcome & Update on ongoing activities Anastasia Koutsouri (Greece), Aleksandra Popovac (Serbia) 2) Knowledge and Educational Needs in Gerodontology Among Healthcare professionals - results from PROGRAMMING COST action CA21122 Aleksandra Popovac (Serbia) 3) Update on objectives and actions planned for the next year Anastasia Koutsouri (Greece), Aleksandra Popovac (Serbia)	SIG on Urinary Incontinence Chairs: Maria Nuotio (Finland), Maria Panourgia (UK) 1) Welcome and Introduction from the Co-Chairs Maria Nuotio, Finland, Maria Panourgia, UK 2) Update on ongoing activities and collaborations 3) Medication-related decision making in the management of urinary incontinence for people with dementia Amanda Cross, Australia 4) Urinary retention in hospitalised older patients Kathleen Fagard, Belgium 5) Update on objectives and actions planned for the next year		
12:30-14:00	BREAK								

14:00-15:15	Frailty, How to predict declining function? Chairs: Dhayana Dallmeier (Germany), Eric Boulanger (France) 1. Clinical Frailty Scale : when, where & how? Sara Hägg (Sweden) 2. Lessons from the INSPIRE cohort Yves Rolland (France) 3.Lessons from the BUTTERFLY cohort Ivan Bautmans (Belgium)	Can we heal a broken heart? Managing heart failure in older people with complex co-morbidities Chairs: Anastasia Koutsouri (Greece), Raj Rajkumar (UK) 1. Beyond the break: rebuilding life and function with cardiac rehabilitation Paul Dendale (Belgium) 2. Advances in Heart Failure Management in Older People: Drugs and Devices in 2026 Frederic Roca (France) 3. Cardiorenal Failure in Older Adults: Where Aging, Frailty, and Multimorbidity Meet Bruna Gigante, Sweden	Joint FFN-EuGMS symposium - Making Nutrition Care SIMPLER After Fragility Fracture to close the knowledge to practice gap Chairs: Jesper Ryg (Denmark), Nathalie van der Velde (The Netherlands) 1. The Case for Change: Demonstrating the Nutrition Evidence–Practice Gap After Fragility Fracture Ólöf Guðný Geirsdóttir (Iceland) 2. Introducing SIMPLER: a Co-Created Nutrition Pathway and Implementation Toolkit for Better Nutrition and Better Outcomes after Fragility Fracture Jack J. Bell (Australia) 3.From Implementation to Impact: Practice Change After SIMPLER Adoption Carmelinda Ruggiero (Italy)	EAMA core curriculum Is it ever too late? What's the current evidence on Health Promotion in the oldest old? Chairs: Thomas Munzer (Switzerland) Gulistan Bahat (Turkiye) 1. Cardiovascular risk - statins, antihypertensives and the rest: who should we target, and for how long? Serdar Ozkok (Turkiye) 2. Cancer screening in later life: what's the evidence? Kaisa Schroderus (Finland) 3. Age and new vaccines : benefits and risks Rui Buzaco (Portugal)	SUBMITTED SYMPOSIUM Taking population responsibility: national approaches to frailty care and monitoring Chairs: Thomas Johannesson Hjelholt (Denmark), Anne Ekdahl (Sweden) 1. Italian Guidelines on Frailty Graziano Onder (Italy) 2. Swedish Guidelines on frailty Anne W. Ekdahl (Sweden) 3. National Monitoring of Frailty Care: The Danish DANFRAIL Quality Database Lone W. Lietzen (Denmark)	SUBMITTED SYMPOSIUM BUILDING AGE-FRIENDLY HOSPITALS FOR TOMORROW: RETHINKING CARE FOR AN AGEING SOCIETY Chairs: George Soulis (Greece), Frédéric Bloch (France) 1. Conception of a recognized accreditation for a senior-friendly hospital in France: the accreditation "Hospital Attentive to the Elder" Frédéric Bloch (France) 2. Age-friendly hospital: the first initiative made a reality with quality accreditation in Spain Fátima Brañas (Spain) 3. How can we shift the paradigm by drawing inspiration from European experiences? Sandra Higuët (Belgium)	ORAL COMMUNICATIONS 1 Chairs: Jacques Boddart (France), Giulia Ogliari (UK) O-001. Diagnostic value of 18F-FDG PET/CT in patients over 75 years of age investigated for fever and/or biological inflammatory syndrome of unknown origin compared to younger patients. [ID 0155] Ombeline Helluy (France) O-002. An analysis of patient outcomes after implementation of a seven day consultant geriatrics service [ID 0337] Jeffymol Joseph (United Kingdom) O-003. Comprehensive Geriatric Assessment for Older People Presenting to the Emergency department: Systematic Review and Meta-Analysis [ID 0834] Amy Lynch (Ireland) O-004. Palliative interventions for the older people with a progressive chronic condition visiting the emergency department: a systematic review. [ID 0890] Claire Musquar (Belgium) O-005. Understanding crisis situations in the care for community-dwelling older individuals – a qualitative study [ID 0923] Dolly Haselager (Netherlands) O-006. Predictors of 6-month mortality in older adults admitted to a sub-intensive care unit: a prospective cohort analysis from the PROSAFE registry. [ID 0999] Elisa Bottero (Italy) O-007. Navigating Multi Level Complexity in Urgent Community Care for Older People with Frailty [ID 1167] Natalie Cox (United Kingdom)	ORAL COMMUNICATIONS 2 Chairs: Carolien Benraad (Netherlands) O-008. Cognitive behavior therapy in Parkinson's disease: A systematic review and network meta-analysis [ID 0140] Tengfei Li (China) O-009. Multidimensional determinants of depressive symptoms in Colombian centenarians [ID 0802] Juan-Manuel Anaya (Colombia) O-010. Migration-Related Disparities in the Timing of Mental Health Diagnosis in Older Adults [ID 1328] Ana Carolina Teixeira Santos (Luxembourg) O-011. Understanding Prescribing Patterns in the Last Days of Life on Acute Geriatric Wards: Morphine and Benzodiazepine Use and Dosage Evolution, a Prospective Observational Study [ID 1069] Tim Biesbrouck (Belgium) O-012. Differences in Perceptions of Quality of Dying Scores during the Last Days of Life on Acute Geriatric Wards: A Prospective Observational Study in Relatives, Nurses and Doctors [ID 1070] Tim Biesbrouck (Belgium) O-013. How does frailty impact caregiver burden in a population with parkinsonism? [ID 0511] Connie Glover (United Kingdom) O-014. Structural changes in brain MRI predicting future frailty; FINGER sub-study [ID 0063] Johanna Pöyhönen (Finland)	WORKSHOP Hands-On Point-Of-Care Ultrasound: Lung Siri Aas Smedemark (Denmark)
15:25-16:40	Alzheimer's dementia in older people: more than just amyloid? Chairs: Hanna Ohman (Finland), Pinar Soysal (Türkiye) 1. Predicting dementia: the value of amyloid and other biomarkers Susan Shenkin (UK) 2. Treating dementia: a neurogeriatrics perspective on antiamyloid treatment Konrad Rejdak (Poland) 3. Managing dementia: a healthcare leader perspective on antiamyloid treatment Alexandre Bonnard (Sweden)	Sexuality as we age Chairs: Sylvie Bonin-Guillaume (France), Artur Torosyan (Armenia) 1. The successful sexual aging Aleksandar Stulhofer (Croatia) 2. Transformations in sexual life among the elderly: a gendered aging Lena Pamboutzoglou (France) 3. "I'm Too Old for That": The Role of Ageism and Sexual Dysfunctional Beliefs in Sexual Health in a Sample of Heterosexual and LGB Older Adults Luca Flesia (Italy)	What ages first : the brain or the legs? Chairs: Alvaro Casas Herrero (Spain), Mary Randles (Ireland) 1. Walking in humans: how much brain function is needed? Reto Kressig (Switzerland) 2. Motoric cognitive risk Victoire Leroy (France) 3. When the Brain Meets the Ground: Gait, Cognition, and Falls Manuel Montero Odasso (Canada)	EAMA core curriculum On the move: what's the current evidence for mobile geriatric teams? Chairs: Sandra de Breucker (Switzerland), Hanna Pajulammi (Finland) 1. Perioperative geriatric teams Mark Osterdahl (UK) 2. Oncogeriatric teams Clemence Cuvelier (Switzerland) 3. Home geriatric liaison teams Anna Bjorg Jonsdottir (Iceland)	SUBMITTED SYMPOSIUM Developing Meaningful And Lasting European Partnerships In Education And Training In Geriatrics: From Emerging Systems To Harmonisation And Interdisciplinary Leadership (A SIG Education And Training Submitted Symposium) Chairs: Roman Romero-Ortuno (Ireland), Stefania Maggi (Italy) 1. PROMoting GeRIatric Medicine In Countries Where It Is Still eMeRGing: Achievements And Future Directions Of PROGRAMMING COST Action 21122 Marina Kotsani (Greece) 2. Building Awareness, Curricula And Assessment in European Geriatric Medicine: The Roles Of IAGG e-TRIGGER AFMEE And UEMS GMS5 Michael Vassallo (United Kingdom) 3. Leadership And Interdisciplinary Partnerships As Enablers Of Sustainable Geriatrics Education: The Role Of EAMA And Collaboration With EICA Thomas Munzer (Switzerland)	SUBMITTED SYMPOSIUM Updating Sarcopenia Research: Insights From Meta-Syntheses Chairs: TBD 1. Understanding the methodology and statistics of meta-analyses: implications for sarcopenia research Charlotte Beaudart (Belgium) 2. Recent advances and meta-analyses in observational studies of sarcopenia Nicola Veronese (Italy) 3. Recent meta-syntheses in sarcopenia-based interventions: focusing on prevention and treatment Konstantinos Prokopidis (United Kingdom)	ORAL COMMUNICATIONS 3 Chairs: Lotta Seppala (Netherlands), Ezgi Pinar (Türkiye) O-015. Head-to-Head Comparison of Medication-Related Risk Scales for Mortality Prediction in CSF Biomarker-Defined Alzheimer's Disease [ID 0094] Théodore Decaix (France) O-016. Association between anticholinergic and sedative medications and sleep health: results from the Canadian Longitudinal Study on Aging (CLSA) [ID 0919] Willy-Brad Hagenimana (Canada) O-017. Swallowing deficits induced by drugs in older people – systematic review [ID 1161] Martin Wehling (Germany) O-018. Efficacy of Ultraviolet Germicidal Irradiation (UVGI) devices to decrease the incidence of respiratory infections in nursing homes: a cluster randomized crossover trial (RESPROTECT) [ID 0289] Eric Luneau (France) O-019. Integrating Vaccination Into Geriatric Care Pathways in France : Impact of an In-Hospital Catch-Up Strategy on Immunization Coverage [ID 0516] BENEDICTE SIMOVIC (France) O-020. Tafamidis reduces mortality and hospitalisation for acute heart failure in octogenarians patients with transthyretin cardiac amyloidosis: a propensity-score-weighted cohort study [ID 0162] Louise Zmuda (France) O-021. The role of Frailty and Physical Impairment in Multidomain Cardiac Rehabilitation After Myocardial Infarction [ID 0251] Stefano Volpato (Italy)	ORAL COMMUNICATIONS 4 Chairs: Susanne Sorensen Hernes (Norway), Radhouane Gouiaa (Tunisia) O-022. Association of SGLT2 inhibitors and new-onset dementia in non-diabetic patients with heart failure [ID 0051] Abdelhakim HACIL (France) O-023. Recombinant zoster vaccination and long-term cardiovascular and dementia risk in older adults [ID 0052] Abdelhakim HACIL (France) O-024. An Integrated Blood Biomarker–Clinical Model for Alzheimer's Disease Risk Prediction Identifies NCKAP1, ANGPT1, PIP4K2A, and CD34 as Dynamic Progression-Related Signatures [ID 0592] Li Yang (China) O-025. Geriatric Syndromes and Real-World Eligibility for Anti-Amyloid Therapies in Older Patients: Preliminary Results from the GEROMAB Study [ID 0606] Siddhartha Pandit (Switzerland) O-026. Cardiovascular Multimorbidity, Alzheimer's Blood Biomarkers, and Risk of Dementia and Death in Old Age [ID 0744] Francesca Gasparini (Sweden) O-027. Immune Signatures of Cognitive Decline in Chronic Kidney Disease: A Longitudinal Analysis of the Health and Retirement Study [ID 1049] Luca Soraci (Italy) O-028. Electronic Frailty Index (eFI) Trajectories And Risk Of Early- And Late-Onset Dementia: A Real-World Longitudinal Study [ID 1125] Silvia Ottaviani (Italy)	WORKSHOP From Words to Impact: Co-Creating Actions to Advance Geriatric Medicine Across Europe Sofia Duque (Portugal)
16:50-18:00	OPENING CEREMONY Keynote Lecture 1 Biological basis of functionality Bruno Vellas (France)								
18:00-19:00	WELCOME RECEPTION								
SEPTEMBER 17	Grand Theatre 1500 seats	Theatre Louis Pasteur 477 seats	Theatre Marie Curie 422 seats	3.2 AB Room 220 seats	3.1 AB Room 192 seats	2.3 + 2.4 Room 160 seats	3.1 C Room 100 seats	3.2 C room 100 seats	Workshops Room 3.5+3.6
08:30-09:45	Falls, mobility and functioning Chairs: Carmelinda Ruggiero (Italy), Tahir Masud (UK) 1. FALLPREVENT: tailored implementation of national recommendations on falls prevention in Norway Kristin Taraldsen (Norway) 2. Cardiovascular risk in Parkinsons disease Mariana Alves (Portugal) 3. Is exercise the best medicine for falls prevention? Tomasz Kostka (Poland)	Medication optimization in frail older adults Chairs: Eveline van Poelgeest (Netherlands), Peter Mikus (Slovakia) 1. Digital tools to support medication optimization/(de)prescribing: the holy grail? Adalsteinn Gudmundsson (Iceland) 2. Integrated care in medication optimization: connecting to allied health care professionals for better value Christelle Mouchoux (France) 3. Going green: reducing CO2 emissions through medication optimization Deb Gompertz (UK)	Geriatric Hematology: emerging evidence and evolving strategies Chairs: Cecilia Lund (Denmark), 1. Tailoring Treatment of Hematological Malignancies in Older People with frailty Siri Rostoft (Norway) 2. The ageing stem cell Carolina Florian (Spain) 3. CHIP: clonal hematopoiesis a surrogate for aging and other diseases Alexandros Spyridonidis (Greece)	EAMA core curriculum Fighting back: managing multidrug-resistant infections in older adults across care settings Chairs: Helene Vallet (France), Adam Gordon (UK) 1. Antimicrobial appropriateness in older adults: new options and old principles Laura Petraglia (Italy) 2. Preventing multidrug-resistant infections in community and long-term care settings Sofie Jansen (The Netherlands) 3. From hospital to home: integrated care pathways for older adults with resistant infections Howell Jones (UK)	SUBMITTED SYMPOSIUM Multimorbidity, From Assessment to Action: Where Are We and What Are We Missing? Chairs: Mirko Petrovic (Belgium), Maria Cristina Polidori (Germany) 1. Multimorbidity patterns, clinical relevance and biological underpinnings Davide Liborio Vetrano (Sweden) 2. Multimorbidity and cognitive aging Alessandra Marengoni (Italy) 3. Clinical guidelines for multimorbidity Barbara von Munster (The Netherlands)	SUBMITTED SYMPOSIUM Frailty and cognitive performance: identifying modifiable drivers of decline Chairs: Sean Kennelly (Ireland), Pinar Soysal (Türkiye) 1. The hidden versus visible disease: what Alzheimer's pathology prevalence means for frailty and healthy ageing in community settings Miguel Germán Borda (Norway) 2. Nutritional interventions to support cognitive ageing Nicola Veronese (Italy) 3. When cognition meets balance: Managing fall risks for older people with mild cognitive impairment Yaohua Chen (France)	ORAL COMMUNICATIONS 5 Chairs: Graziano Onder (Italy), Maria Tampaki (Greece) O-029. Barriers and Facilitators of Social Participation among Community-Dwelling Older Adults: A Mixed-Methods Systematic Review based on Social Ecological Model [ID 0030] Yufan Yang (China) O-030. MUSCULOSKELETAL HEALTH AND LIFE-SPACE MOBILITY, SOCIAL ISOLATION AND LONELINESS IN THE OLDEST OLD: FINDINGS FROM THE HERTFORDSHIRE COHORT STUDY [ID 0220] Faidra Laskou (United Kingdom) O-031. Effect of a Multidomain Lifestyle Intervention on Healthy Ageing: Evidence from the FINGER Trial Using the Health Assessment Tool [ID 0774] Amaia Calderón-Larrañaga (Sweden) O-032. Mapping the network of occurring chronic diseases in the general population of individuals over 60 [ID 0879] Adrien Perigord (Sweden) O-033. Associations between anticholinergic and sedative medication burden and dynamic gait parameters in older adults: Cross-sectional baseline analysis within a longitudinal deprescribing study [ID 0884] Baroud Marie-Laure (Canada) O-034. Sleep Disturbances and Their Association with Intrinsic Capacity in Older Adults: Insights from the Longitudinal Aging Study in India [ID 0892] Shreya Biswal (India) O-035. Equity reporting in Cochrane reviews of interventions for Dementia, Falls, and Incontinence: a systematic assessment [ID 0906] Catlin Pears (United Kingdom)	ORAL COMMUNICATIONS 6 Chairs: Slawomir Tobis (Poland) O-036. Prevalence of GLIM-Based Malnutrition and Its Relationship with Frailty in Diabetic Older Adults [ID 0138] Meryem Seyma Yurt (Türkiye) O-037. Real-world walking patterns from wrist-worn wearables predict incident type 2 diabetes: a UK Biobank WatchWalk study [ID 1194] Carlota Lisset Toapanta Gaibor (Spain) O-038. Real-Life evaluation of a post-hospitalisation personalized dietetic follow-up in older [ID 0459] MANUEL SANCHEZ (France) O-039. Can the combination of vitamin D deficiency and diabetes accelerate the risk of long-term disability in older adults? Evidence from the ELSA cohort study [ID 1492] Mariane Luiz (Brazil) O-040. Nutritional and Pharmacological Interventions for Sarcopenia in Older Adults: A Systematic Review and Network Meta-Analysis [ID 0203] Meng Zhang (China) O-041. Associations Between Body Size Adjusted Appendicular Skeletal Muscle Mass and Muscle Strength and Functional Performance in Older Adults [ID 0332] Robert Speer (Germany) O-042. Sarcopenia affects one-third of older hospitalized patients: a systematic review and meta-analysis [ID 1175] Sophie Van Heden (Belgium)	WORKSHOP Hands-On Point-Of-Care Ultrasound: Lung Siri Aas Smedemark (Denmark)
09:45-10:30	BREAK	Short Poster Presentations 1 Group 1 Chairs: Marine Oechslin Rimet (France), Michael Vassallo (UK) Group 2 Chairs: Jeremie Huet (France), Gulistan Bahat (Türkiye) Group 3 Chairs: Nicolas Sohyer (France), Susan Shenkin (UK)				CGA QUIZ Maria Beatrice Zazzara (Italy), Elena Levati (Italy)	Sponsored Session - Innovation Theatre		

10:30-11:45	Older Patient ICU Pathways: Current Status and Future Directions Chairs: Stephen Lim (UK), Pavlinka Milosavljevic (Northern Macedonia) 1. Long-term prognosis and functional outcome of old patients after a stay in ICU Michael Beil (UK) 2. Collaborative work between geriatricians and intensive care specialists: the present and the future Hélène Vallet (France) 3. What role does the older patient's choice play in the decision to provide intensive care? Gabrielle-Léonie Schwarz (Norway)	WHO - EuGMS Joint Symposium Chairs: Antonio Cherubini (Italy), Nathalie van der Velde (The Netherlands) 1. Updates from the WHO Matteo Cesari (Italy) 2. Knowledge gaps of healthcare workers on the dimensions of intrinsic capacity Giulia Oglari (UK) 3. Implementation of the Integrated Care for Older People (ICOPE) programme into clinical practice in France Maria Soto-Martin (France)	Stefania Maggi Early Career Award Chairs: Karolina Piotrowicz (Poland), Stefania Maggi (Italy), Ana Viegas (Portugal) 1. Electronic Frailty Index (eFI) Trajectories And Risk Of Early- And Late-Onset Dementia: A Real-World Longitudinal Study Silvia Ottaviani (Italy) 2. Ten years of Oncological Geriatric Rehabilitation in The Netherlands: Real-World Outcomes of a Nationwide Cohort Julia Lyons (Netherlands) 3. Frailty and Five-Year Mortality After TAVR in Patients Aged 75 Years and Older Jérémie Huet (France)	EAMA core curriculum Dozing off: Sleep disorders in older adults Chairs: Mathias Schlogl (Switzerland), Kiyoka Kinugawa (France) 1. Screening and recognition of sleep disorders in older adults Santiago Castejon Hernandez (Spain) 2. Advances in the treatment of insomnia in later life Marin Herceg (Germany) 3. Insomnia management as a strategy for dementia and cardiovascular prevention Nienke Goluke (The Netherlands)	Sponsored Symposium	SUBMITTED SYMPOSIUM Biomarkers and personalized interventions in aging: from molecular mechanisms to clinical implications Chairs: Thomas Jackson (UK), TBD 1. Translational Approaches to Ageing Research: Sample Strategies and Exercise-Induced Biological Effects Chenhui Chen (Spain) 2. REBOUND/REPROGRAM: Biomarkers and Resilience in Hospitalised Older Adults Carly Welch (UK) 3. Immune and molecular biomarkers for cognitive impairment and dementia Adam Dyer (Ireland)	ORAL COMMUNICATIONS 7 Chairs: Tomas Welsh (UK), Barbara Machado (Switzerland) O-044. Multi-omics profiling reveals systemic rejuvenation of the aged kidney through senolytic therapy [ID 0009] Shilin Chen (China) O-045. Elevated skeletal muscle receptor for advanced glycation end-products content with ageing is associated with greater systemic inflammation and mitochondrial alterations in females [ID 0650] Frederic Daussin (France) O-046. Multidimensional aging in centenarians: heterogeneous organ-specific trajectories and the clinical relevance of preserved cognitive-functional phenotype [ID 0800] Ivan David Lozada Martinez (Colombia) O-047. Role of RAGE in Physiological Renal Aging: A Sex-Specific Analysis in Mice [ID 0858] Paola Riveros (France) O-048. Are nutrition apps age-friendly? A multi-methodological quality assessment by a geriatrician expert panel [ID 0997] Ummugulsum DURAK (Türkiye) O-049. What is known about digital literacy, digital inclusion and attitudes to digital health tools among older adults undergoing surgery? A systematic review and narrative synthesis [ID 1185] Amelia Paveley (United Kingdom) O-050. The longest wake episode duration during the nocturnal sleep period carries information on subjective sleep quality in community-dwelling older adults. [ID 1455] Maria Colotti (Italy)	ORAL COMMUNICATIONS 8 Chairs: Mariana Alves (Portugal), Fatma Kayhan Koçak (Turkey) O-051. Exploring Undiagnosed Dementia in Residential Aged Care: Prevalence, Associated Factors and Impact on Health Outcomes Over 12 Months [ID 0062] Reena Tewari (Australia) O-052. Effectiveness of Dyadic Interventions in Improving Outcomes for Adults with Multiple Long-Term Conditions and/or Frailty and Their Informal Carers: A Systematic Review [ID 0143] Stella Arakelyan (United Kingdom) O-053. Implementing Clinical Guidelines in Long-Term Care: A Process Evaluation of Three Strategies [ID 0229] Annie ML Ea (Australia) O-054. The Cost of Caring: quantifying informal care costs from the PRIME-UK randomised controlled trial [ID 0521] Savannah Haworth (United Kingdom) O-055. Context matters for the development of enhanced naturally occurring retirement communities (NORC) models – a population-based analysis of NORC building-type in Toronto, Canada [ID 0574] Albana Isai (Canada) O-056. Evaluating the effectiveness of using knowledge brokers, supported by a national quality improvement collaborative, to implement guidelines [ID 0722] Amanda J Cross (Australia) O-057. The Impact Of The SHIFT Transmural Care Model On Avoidable ED Admission And Quality Of Care Transition In Nursing Home Residents [ID 1321] Dora Philips (Belgium)	
11:45-12:00	BREAK								
12:00-13:15		Sponsored Symposium	Sponsored Symposium	Sponsored Symposium	Sponsored Symposium	EAMA core curriculum Workshop How can big data help us deliver better healthcare for older people? Mark Rawle (UK), Alice Ornago (Italy) 1. Population segmentation for care personalization 2. Risk prediction in community care patients 3. Improving integrated and transitional care			
13:15-14:00	BREAK / POSTER VIEW	Short Poster Presentations 2 Group 1 Chairs: Mayeul Deimar de Jabrun (France), Ellen Vlaeyen (Belgium) Group 2 Chairs: Serdar Özkok (Türkiye), Anastasia Koutsouri (Greece) Group 3 Chairs: Ana Viegas (Spain), Tomasz Kostka (Poland)		Sponsored Panel Discussion			Sponsored Session - Innovation Theatre		
14:00-14:45	Keynote Lecture 2 Chair: Nathalie van der Velde (The Netherlands) The ageing world: Centenarians on the rise Karen Andersen (Denmark)								
14:50-15:30	DIRECTOR'S CHOICE Chair: Nathalie van der Velde (The Netherlands) Robot-assisted physical training of older patients during aUte hospitalisation - a randomised controlled trial (ROBUST) Jesper Ryg (Denmark)								
15:35-16:50	Breaking the Chain: Innovative Strategies for Infectious Disease Prevention Chairs: Gaetan Gavazzi (France), Meltem Koca (Türkiye) 1. Preventing Hospital-Acquired Infections: Strategies and Success Stories Elisabeth Botelho Nevers (France) 2. Advances in Vaccine Development: Protecting Communities Against Emerging Pathogens Ab Osterhaus (The Netherlands) 3. Public Health Interventions: Community-Based Approaches to Preventing Infectious Spread Stefania Maggi (Italy)	Improve mobility in the city Chairs: Genc Burazeri (Albania), Ellen Freiburger (Germany) 1. Ageing and making cities a better place to live, Age-Friendly City Jan Kazak (Poland) 2. Outdoor mobility in senior housing residents and community-dwelling older people Taina Rantanen (Finland) 3. Daily mobility of aging people: place of new technologies Maria Tebar (France)	Complex diabetes interventions in frail older adults: beyond the black box Chairs: Stefano Volpato (Italy), Susan Shenkin (UK) 1. Choosing appropriate glucose lowering treatment in frail complex patients Alan Sinclair (UK) 2. Nonpharmacological interventions to preserve function: beyond glycaemic targets Antoine Christiaens (Belgium) 3. Diabetes technology: opportunities and threats Tali Cukierman-Yaffe (Israel)	ECGI core curriculum Symposium - Bridging the Gap: From Social Prescribing to Social Frailty Chairs: Ana Viegas (Spain), Anne Ekdahl (Sweden) 1. Identifying Social Frailty: Hidden risk of aging world Yelda Ozturk (Türkiye) 2. Implementing Social Prescribing for social frailty: From concept to clinic Pablo Mourelle Sanmartin (Spain) 3. Pro/Con Discussion: "Should Comprehensive Geriatric Assessment include a social prescription? Anne Ekdahl (Sweden)	Public Health Approaches to Overlooked Challenges Chairs: Jurate Macijauskiene (Lithuania), Sean Kennelly (Ireland) 1. Evolution and implementation of dementia policies Howard Bergman (Canada) 2. Aging in drinking society - EuGMS as a part in alcohol prevention strategies Dorota Religa (Sweden) 3. Positive Ageing in a Changing Climate Colm Byrne (Ireland)	SUBMITTED SYMPOSIUM Cognitive Assessment in the oldest old – challenges and opportunities Chairs: Hanna-Maria Roitto (Finland), Tomas Welsh (UK) 1. Addressing ageism in diagnosis and assessment of cognitive disorders Desmond O'Neill (Ireland) 2. Cognitive Health as a Prerequisite for Successful Geriatric Treatment and Rehabilitation Rosa Liperoti (Italy) 3. Dementia as a diagnostic challenge in very old people Nenad Bogdanovic (Sweden)	ORAL COMMUNICATIONS 9 Chairs: Maria Montero Garcia (Spain), Neus Gual Tarrada (Spain) O-058. Delirium attenuates the protective value of functional status against in-hospital falls in older adults [ID 0326] Aline Mendes (Switzerland) O-059. Association of Preferred Language with Post-acute Care Outcomes in the Year after Hospitalization with Delirium [ID 0537] Christina Reppas (Canada) O-060. Perioperative blood biomarkers of neurodegeneration and their association with postoperative delirium occurrence, duration, and severity in older surgical patients [ID 1124] Christine von Arnim (Germany) O-061. Impact of Orthogeriatric Care: Prescription Patterns in Hospitalized Elderly Patients [ID 0046] Mariana Alves (Portugal) O-062. Orthogeriatric mortality under rising system pressures: evidence of structural resilience and emerging challenges from a 14-year retrospective cohort [ID 0173] Bastien Genet (France) O-063. Predictive role of sarcopenia in older people undergoing surgery: a cohort study [ID 0409] Vincenzo Gianturco (Italy) O-064. Can large language models safely support geriatric prescribing? A comparative blinded expert evaluation [ID 0217] Kübra Cingar Alpaya (Türkiye)	ORAL COMMUNICATIONS 10 Chairs: Nina Rosa Neundorff (Germany), Jerzy Gąsowski (Poland) O-065. Medications and risk of moderate-to-severe treatment-related toxicities in older cancer patients: role of anticancer agents, polypharmacy, and potentially inappropriate medications [ID 1222] Jeremy Barben (France) O-066. Frailty assessment beyond performance Status: added value of handgrip strength test, 30-second chair stand test, and Geriatric 8 in predicting treatment tolerance and one-year survival in older adults with cancer [ID 1332] Ann-Kristine Weber Giger (Denmark) O-067. IMPACT OF A PERIOPERATIVE EXERCISE PROGRAM ON PHYSICAL FUNCTION AND MUSCLE STRENGTH IN OLDER WOMEN WITH BREAST CANCER: PRELIMINARY RESULTS OF A RANDOMIZED CLINICAL TRIAL [ID 1384] Maria Ondarra Erdozaín (Spain) O-068. Ten years of Oncological Geriatric Rehabilitation in The Netherlands: Real-World Outcomes of a Nationwide Cohort [ID 0513] Julia Lyons (Netherlands) O-069. Sedentary Behaviour After TIA or Minor Stroke: Comparing Hospital-at-Home and Conventional Hospital Pathways [ID 0944] Suzanne Debeij (Netherlands) O-070. Introducing Blood Flow Restriction Training in Acute Geriatric Care: Feasibility, Safety, and Early Functional Outcomes [ID 0804] Raoul De Smet (Belgium) O-071. Effects Of Exercise And Protein-Based Interventions In Older Adults With Sarcopenia: A Systematic Review And Meta-Analysis [ID 0661] Konstantinos Prokpidis (Greece)	WORKSHOP Preparing For The European Geriatric Medicine Specialty Exam (EGEMSE) Roman Romero-Ortuno (Ireland)
17:00-18:15	How to prevent Hospital-Associated Disability Chairs: Mirko Petrovic (Belgium), Jugdeep Dhesi (United Kingdom) 1. Concept and epidemiology of Hospital-Associated Disability Jose Antonio Serra Rexach (Spain) 2. Functional decline-Hospitalization-Transitional Care-Innovative interventions Bianca Buurman (The Netherlands) 3. Early in-hospital patient rehabilitation Christophe Graf (Switzerland)	Best robots for the future Chairs: Siri Aas Smedemark (Denmark), Cedric Annweiler (France) 1. Robotic Solutions for Healthy Aging Slawek Tobis (Poland) 2. Digital Coaching and Social Robots in Geriatrics Cornelia Schneider (Austria) 3. Smart Technologies Supporting Older Adults Alberto Pilotto (Italy)	End of life decisions Chairs: Rozemarijn Van Bruchem-Visser (Netherlands), Andrea Ungar (Italy) 1. Ethical Compass at Life's End: Cultural Values, Dignity and Decision-Making in Geriatric and Palliative Care Sandra Martins Pereira (Portugal) 2. Empowering Choices: How Digital Tools Support End-of-Life decisions Nathan Davies (UK) 3. Exploring Symptom Relief in the Last Days of Life: Results from a European Online Survey Maaike De Roo (Belgium)	GEI core curriculum Symposium - Gerotechnology & AI for older people with cognitive impairment: Advancements and challenges Chairs: Eleni Mourtzi (Greece), Athanasia Benetos (France) 1. AI-assisted rehabilitation Ekaterini Zigoura (Italy) 2. AI-assisted cognitive training Renaud David (France) 3. Safety, equity, and usability of digital therapeutics Maaike van Assche (Belgium)	SUBMITTED SYMPOSIUM Shared Decision-Making in End-Stage Kidney Disease: A Geronto-Nephrology Collaboration Chairs: Anna Affeldt (Germany), Hana Vankova (Czech Republic) 1. ESKD treatments, their risk in older persons, and patients' priorities Angèle Kerckhoffs (The Netherlands) 2. Challenges and resources for shared decision-making in ESKD: a geronto-nephrology dynamic to improve quality and integration of care Florent Guerville (France) 3. Decisional process and communication to achieve shared decision making Thomas Tannou (Canada)	SUBMITTED SYMPOSIUM Clinical Guidelines for older people: making them applicable and useful Chairs: Finbarr Martin (UK), Helgi Kolk (Estonia) 1. Are frail older people in the evidence and how can we recognise them? Dorota Religa (Sweden) 2. Real world evidence and developments in evidence synthesis Terry Quinn (United Kingdom) 3. Implementing guidelines through patient centred care: balancing consistency with flexibility Barbara van Munster (The Netherlands)	ORAL COMMUNICATIONS 11 Chairs: Andrea Fabbro (Italy), David Shipway (UK) O-072. Hospital-Associated Decline in Older Adults: A Concept Analysis [ID 0210] Amanda Broilly (Ireland) O-073. Clinical Frailty Scale score classes are associated with re-hospitalization up to one year after myocardial infarction. [ID 0285] Dariushev Javazdzhadeh (Sweden) O-074. Frailty and Five-Year Mortality After TAVR in Patients Aged 75 Years and Older [ID 0510] Jeremie Huet (France) O-075. Biological Age outperforms Frailty Index in mortality prediction in community-dwelling older adults– the ActiFE study. [ID 0652] Dhayana Dallmeier (Germany) O-076. Impact of Frailty and Cognitive Impairment on Therapeutic Decision-making in Older Adults with Aortic Stenosis [ID 0793] Lizia Valery Madrid Robladillo (Spain) O-077. Identification and Validation of the Creatine Precursor Guanidinoacetic Acid in Frailty: A Cohort-Based Metabolomics Study in Older Adults [ID 0011] Yin Yuan (China) O-078. Even single-domain decline in physical performance predicts short- and long-term mortality in older adults [ID 0975] Chiara Ceolin (Italy)	ORAL COMMUNICATIONS 12 Chairs: Aurelie Gues (Luxembourg), Thomas Pedersen (Denmark) O-079. Inter-individual variability in clinically meaningful responses to exercise in older adults: An ancillary analysis of a multicenter randomized controlled trial [ID 0221] Alvaro Casas Herrero (Spain) O-080. Implementation of an Integrated Primary Care and Community Intervention to Optimise Function in Frail Older Adults: The +AGIL Barcelona Stepped-Wedge Cluster RCT [ID 0382] Marco Inzitari (Spain) O-081. Exploring Phase Angle in Relation to Cellular Health in Older Adults. The SCOPE Study [ID 0474] Dalia Fazel (Netherlands) O-082. Perceived Impact and User Satisfaction of the IS-ICOPE Program [ID 0814] Natalie Molta (France) O-083. Nationwide implementation of the WHO ICOPE framework in a European microstate: feasibility, scalability and system-level impact [ID 0896] EVA HERAS MUXELLA (Andorra) O-084. Effect of Endurance Training on Frailty Progression in Highly Functional Older Adults: A 10-year Follow-up Study [ID 1184] Valerio Antonio Arcobelli (Italy) O-085. Redesigning Geriatric Day Hospitals to Address Emerging Frailty Needs: Integrating Professional and Citizen Perspectives in Catalonia [ID 1157] Mireia Llonch-Masriera (Spain)	WORKSHOP Practical Evidence-Based Perioperative Care For Older Adults David Shipway (UK)

14:50-16:05	Clinical Nutrition Challenges: From Muscle Loss to Recovery Chairs: Stany Perikias (Belgium), Zela Sahin Tirmova (Turkey) 1. GLIM and Friends: Current status, challenges and future perspectives in detecting low muscle mass Tommy Cederholm (Sweden) 2. When Nutrition is Disrupted by Medications: Time to address Drug-Nutrition Interactions Birkan Ihan (Turkey) 3. Mind the Nutritional Gap: Bridging In-Hospital and Post-Discharge Nutritional Care Tina Munk (Denmark)	How to better take care of my health as a natural caregiver Chairs: Roman Romero-Ortuno (Ireland), Maria Beatrice Zazzara (Italy) 1. Health, frailty, burden of natural caregivers Marie de Saint-Hubert (Belgium) 2. Social dysfunction, isolation, loneliness of natural caregivers Sylvie Bonin-Guillaume (France) 3. How doctors can care the natural caregivers? Cafer Balci (Turkey)	GEI symposium - From geriatric medicine good practices to real healthcare benefit for older people Chairs: Rui Buzaco (Portugal), Biljana Zovic (North Macedonia) 1. Geriatric Medicine-related guidelines implementability in countries with emerging GM: the example of World Falls Guidelines Marina Kotsani (France) 2. Translation of evidence to real world clinical care in the context of scarce geriatric resources Monserrat Conde (UK) 3. What does really matter for older people? Meaningful outcomes and value-based care in geriatrics Mohamed Salem (Malta)	EAMA core curriculum Workshop Behavioral symptoms in older people with dementia - what to do? Yaohua Chen (France), Leonardo Bencivenga (Italy) 1. Walking with purpose 2. Sexualised behaviours 3. Persistent vocalisation	SUBMITTED SYMPOSIUM BEYOND INFECTIOUS DISEASES IN OLDER INDIVIDUALS: NON-INFECTIOUS COMPLICATIONS Chairs: Gaetan Gavazzi (France), Alfonso Cruz-Jentoft (Spain) 1. Cardiovascular impact of Infectious Diseases Maria Cristina Polidori (Germany) 2. Cognitive impact of Infectious Diseases Howell Jones (UK) 3. Impact of Infectious Diseases on physical function Claire Roubaud (France)	SUBMITTED SYMPOSIUM Pharmacological management of obesity in older adults: metabolic benefits, muscle health and functional outcomes Chairs: Lorenzo Donini (Italy), Christelle Guillet (France) 1. Anti-obesity pharmacotherapies in older adults: metabolic effects & considerations Eleonora Poggiogalle (Italy) 2. Anti-obesity pharmacotherapies in older adults: body composition, muscle mass & nutritional considerations Yves Boirie (France) 3. Anti-obesity pharmacotherapies in older adults: physical performance & exercise considerations Mylène Aubertin-Leheudre (Canada)	ORAL COMMUNICATIONS 17 Chairs: Atthe Grainger (Austria), Predrag Erceg (Serbia) 0-114. Predictors of post-hospital mortality in geriatric acute care: a retrospective study in Nantes, 2022 [ID 0170] Damien KLAEYLE (France) 0-115. A FEES-Based Score for Pneumonia Risk Stratification in Hospitalized Geriatric Patients With Oropharyngeal Dysphagia [ID 0266] Gero Lueg (Germany) 0-116. Neighbourhood Health and Care – Transforming Care for Older People Through Place-Based Partnership [ID 0446] Jessica Neden (United Kingdom) 0-117. Intrinsic Capacity and All-Cause Mortality in Older Adults: The Role of Individual Domains, Multidomain Patterns, and Frailty [ID 0831] Denizler Sezer (Turkey) 0-118. Barriers to Geriatric clinic recommendation adherence: A mixed-methods study [ID 0903] Evrydiki Kravariti (Greece) 0-119. Intrinsic capacity impairments in older adults in urban Zimbabwe: implementation of a novel community-based multi-component healthy ageing assessment and care model [ID 0928] Celia Gregson (United Kingdom) 0-120. MLTC in a Secondary Care Inpatient Population and Association With Adverse Inpatient Events [ID 1438] Eleanor Hathaway (United Kingdom)	ORAL COMMUNICATIONS 18 Chairs: Helga Eyjólfssdóttir (Iceland), Justina Kilaite (Lithuania) 0-121. The Conceptual Overlap Between Frailty, Sarcopenia, and Parkinson's Disease Tools Used in Parkinson's Disease Research: A Scoping Review [ID 0619] Chris Reidy (Ireland) 0-122. Is there an optimal intensity for resistance training to failure in frail older adults? Results from the TEAMS randomized controlled trial [ID 1122] Mohammed Benali (Netherlands) 0-123. Multidomain Interventions To Improve The Cognitive And Functional Well-Being Of Older Individuals In Long-Term Care Facilities: The I-COUNT Pilot Study [ID 1199] Zaira Romeo (Italy) 0-124. Suboptimal 24-Hour Movement Behavior Profiles and Domain-specific Intrinsic Capacity Impairment in Older Adults: A Multicenter Community-based Cross-sectional Study [ID 0230] Xiuxiu Huang (China) 0-125. Validity of the Derby Scale of Intrinsic Capacity and its association with Pain: a usable measurement of intrinsic capacity based on the English Longitudinal Study of Ageing. [ID 0485] Jemima Collins (United Kingdom) 0-126. Height loss over 1 year is associated with the incidence of functional disability and all-cause mortality in older adults: The Shizuoka Kokuho Database Study [ID 0714] Yasuharu Tabara (Japan) 0-127. Life course drivers of frailty: a longitudinal birth cohort study [ID 0756] Markus Haapanen (Finland)	WORKSHOP Medication use complexity in older adults: How to identify, reduce, and incorporate in medication reviews Wilma Krol (The Netherlands)
16:15-17:00	CLOSING CEREMONY
